

## How to Navigate Our Website

To access the website, begin by opening the index.html file. From this main page, you can navigate through all sections of the site, as every page is interconnected.

When selecting Change Password, you will be redirected to the login page upon submitting the required information. Both the admin and student pages include a Create Account option. During login, a username and password are required any values may be used for demonstration purposes.

Within the Admin Dashboard, all available functions are clearly displayed. You can click on any option to access its corresponding page.

On the Student Dashboard, users can view and manage available bookings. Additionally, the Manage Your Account option, located at the top right corner, provides access to other key student account functionalities.

A video walkthrough explaining this process in detail is included inside the provided zip file.
